

HARBOUR SPACE
UNIVERSITY

**GRADUATING
CLASS 2019**

We are sending our graduates out into the world with a bang. As they move on to the next chapter of their lives, we will be looking forward to their upcoming adventures as they reshape the world.

This year, the graduating students are from the bachelor's and master's programmes in the departments of Interaction Design, Digital Marketing, High-Tech Entrepreneurship, Data Science and Cyber Security.

In this booklet, you will find information about our graduating students and their experiences of studying at Harbour.Space University. You can also find details about the main projects they are pitching to the investors during the Demo Day.

During this past year, our students have worked hard and gained experiences that allowed them to achieve substantial growth in both technical and social skills in the newly emerging fields of today. In the future, we will be looking forward to seeing them prosper in their careers!

We have created a pamphlet as a look back on your educational journey that you braved alongside us, and we hope that when you look through it, you'll remember all the great things you've accomplished during your time in Barcelona. We certainly will!

Harbour.Space University, Emeritus
Director McKinsey & Company

We believe careers should be fulfilling, exciting, and meaningful. We exist to make this happen. Attending university is as much about finding your feet in the world and discovering your own drive and passion as it is about acquiring skills, knowledge and experience.

From day one at Harbour.Space, your prospective career takes centre stage and we facilitate your development and your networking and create opportunities to help you take charge of your future. What comes after Harbour.Space? The sky is the limit. Don't be shy, reach for the stars.

HARBOUR SPACE UNIVERSITY

About Harbour.Space University

Harbour.Space is a university created by entrepreneurs for entrepreneurs. We focus on meeting the demands of the future, while traditional education providers are too often stuck in the past.

We're one of the only European institutions completely dedicated to technology, design and entrepreneurship, and our interdisciplinary courses are taught by some of today's leading professionals. Our aim is not only to equip students with the knowledge to take on the real world, but to nurture, create and shape tomorrow's tech superstars.

Key Facts

- Founded in 2015
- Offers degrees in Mathematics, Computer Science, Data Science, Cybersecurity, Fintech, Aerospace Engineering, Biotech, Interaction Design, Digital Marketing, Robotics, High-Tech Entrepreneurship and Super Cities
- Faculty comprised of the most accomplished professionals and industry leaders from around the world, who continuously scrutinise the curriculum to ensure students focus on realtime useful subjects
- On our state-of-the-art campus knowledge flows freely

UNIVERSITY REINVENTED

Leaders in business are the students' personal teachers. We don't care about titles and we don't do red tape: we hire teachers based on experience and expertise, just like in the real world. We are the most relevant university of our age.

STUDENTS ARE SUPERSTARS

Harbour.Space exists for one purpose only: to help young individuals pursue knowledge, so they can progress into fulfilling and meaningful professional futures. We offer the fundamental knowledge, skills and guidance that give students the chance to make anything happen. Our students are not cogs in a machine. We celebrate our human approach by cultivating team work, interdisciplinarity, empathy and curiosity.

TECH ♥ DESIGN

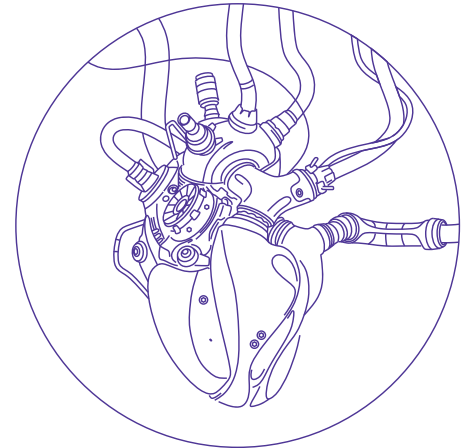

Great ideas and their realisation seldom come from specialists: they come from all-round visionaries. But presently, technology and design are in an arranged marriage: they are together because this is what's expected. We are cultivating a love marriage between the two, and we are the only university in Europe to do so. We're doing this because the two naturally depend on one another, but experience a great lack of understanding. Interdisciplinarity is our love potion – expect sparks.

TIME ≠ MONEY

Youth is not for sale. That's why we teach highly relevant and real-world responsive courses that give students a head-start even before graduation. Our programme leaders continuously scrutinise the curriculum to ensure students focus on realtime useful subjects. We teach 3-week intensive courses throughout the year, offering more learning in less time, on flexible and adaptable schedules.

NO COMPROMISES

If you get a place at Harbour.Space, you get the best education. The programmes are tough and our students must work hard. We don't sell quick-fix coding or data science courses, because they don't exist. Only with very solid foundational knowledge of universal core concepts in science can students grow to move forward indefinitely, no matter how much the world around us changes.

BACHELOR IN DIGITAL MARKETING

Jeremy Sampson

@ jeremysampson1@gmail.com

BIO

Jeremy arrived to Harbour.Space for his Bachelor's in Digital Marketing with a background of Content Production, Sales, and Marketing, and leaves with skills ranging from all types of Digital Production, and an in-depth understanding of Marketing and Strategy. When Jeremy isn't writing or making music, he is working with the Harbour.Space Marketing team or expanding his company, Motion Arts Media.

STUDENT QUOTE

This has been an amazing journey. Not only was I making connections with and learning from top industry professionals who challenged me at a very high level, but I also learned from talented students I worked with. Along with this came the inspiration, which drove me to push harder with all the new skills I learned. The students, friends, skills, education, and connections, all packed in an amazing city like Barcelona - all these priceless detailed experiences will always be something special I will never forget.

BACHELOR IN HIGH-TECH ENTREPRENEURSHIP

Ivan Melo

@ ivan.melo.bigolin@gmail.com

BIO

Ivan was born in Argentina, where he obtained his degree as an Electronic Technician and worked several years in the Automation industry. Fuelled by the idea of creating his own company, he then moved to Barcelona to pursue a Bachelor's in High Tech Entrepreneurship at Harbour.Space. There, he began working on EncryptoArt, a blockchain/art startup.

STUDENT QUOTE

My knowledge of the startup world has grown exponentially since I joined Harbour.Space. Learning from real professionals from important sectors and companies such as Google opened my mind in so many aspects that I had not even considered before. Also, I really value the connections created these years, which I can say will continue for a long time as friends or contacts to collaborate with in the future.

BACHELOR IN HIGH-TECH ENTREPRENEURSHIP

Nicholas Quinn

@ nicholasquinne@gmail.com

BIO

Nicholas is an entrepreneur brought up in an international setting. Born in Barcelona to an Italian family, he attended several schools around the world until he returned to Barcelona to finish his studies, first with a degree in Biotech, and then at Harbour.Space, with a Bachelor's in High Tech Entrepreneurship. During his three years at the University, Nicholas developed his startup, grew personally and professionally, and prepared himself to influence society with his future work and especially to have a positive impact on nature.

STUDENT QUOTE

After three years in Harbour.Space, you learn about life in a very personal way. I encourage current and future students to build wild business ideas, that will completely disrupt industries by leveraging technology and sustainable concepts.

TOP 5 SKILLS:

Innovator

PROJECT:

EncryptoArt & RFP

BACHELOR IN INTERACTION DESIGN

Tessa-Rose Vardy

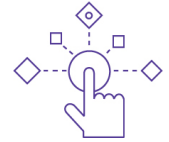

@ tessavardy@gmail.com

BIO

Tessa is a designer from South Africa with a background in computational arts and a combination of talent and experience in 3D, and photo and art direction. She decided to do her Bachelor's in Interaction Design at Harbour.Space in order to shift her work from aesthetic visual design to a more user centered approach, to add depth to her designs, and to positively affect the human beings around her. She wants to keep creating and exploring different mediums to find a way to merge her talents and create products that make humans' life easier.

STUDENT QUOTE

Harbour.Space has really helped me think about the world around me and about human beings in a sphere of design. It has given new light to my work and, most importantly, I am leaving knowing the exact kind of work I want to do. I have met many special hearts who have brightened my day, and cried, laughed and taught me so much. I will always keep this close to me! I am most thankful for the humans who have watched me grow over two years and have been super supportive and always guided me in the best ways possible.

BACHELOR IN INTERACTION DESIGN

Yousuf Labib

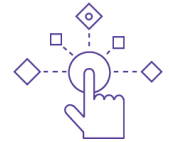

@ voza201@gmail.com

BIO

Yousuf came to Harbour.Space to study Interaction Design as a creative teenager from Egypt. After three years of phenomenal progress, he finishes his Bachelor's with much more than that - after complimenting his expertise in design with courses in Computer Science, High Tech Entrepreneurship, and Digital Marketing, he has emerged from the programme as a young adult with the work ethic and a spectrum of skills that allow him to continue his development in any sector he chooses.

STUDENT QUOTE

My time at Harbour.Space has been a rollercoaster of emotions, skills, and personal growth. It's been a golden time, where the moments I experienced will influence my life forever.

MASTER IN COMPUTER SCIENCE

Shannon Rae Bering

@ shanbering@gmail.com

BIO

Shannon is from an island called Cebu in the Philippines. She received her Bachelor's in Computer Science from the University of the Philippines Cebu, where she also taught as a lecturer. Her experience is varied, ranging from remote development to her current role as a marketing analyst. She enrolled to Harbour.Space for a Master's in Computer Science with the hope of discovering an alternative to traditional education, and plans on continuing her path in Europe, perhaps starting her own company along the way.

STUDENT QUOTE

This was an interesting rollercoaster ride from start to finish, but the memes were worth it. To the friends I gained and even the friends I lost: you are all amazing and I will never stop supporting you from the sidelines. Peace out, and I'll see you at the reunion.

MASTER IN DATA SCIENCE

Çağrı Azcan

@ azcan.cagri@gmail.com

BIO

Çağrı is a Data Scientist from Turkey who was originally born in the UK. Although he comes from a background in Economics, he gradually found himself working in the tech field, in Analyst and Strategy roles. In his words, he wanted to enter and develop his analytical skills in a tech hub, and found that the most intriguing and efficient way to do this was by learning to program and working with data. At Harbour.Space, he found what he was looking for in this respect, within what he describes as a friendly environment that pushes personal and communal growth.

STUDENT QUOTE

Whenever I want to learn and pursue knowledge with sincere effort, I always meet with talented and motivated friends along the way who are sincere in their efforts as well. And this is the real positive experience. Don't imagine yourself being CEO or some other thing that sounds cool, imagine yourself walking the road with people who share your motivation.

MASTER IN DIGITAL MARKETING

Idelette Aucamp

@ idelette6@gmail.com

BIO

Idelette is a South African marketing strategist, creative director and a passionate social entrepreneur that believes in the power of collaboration. She enjoys co-creating engaging content, developing integrated communication strategies and telling unique cultural stories that empower communities, celebrate diversity, foster creativity and inspire positive social change. As such, she came to Harbour.Space to cultivate these qualities with a Master's degree in Digital Marketing.

STUDENT QUOTE

After living in a beautiful foreign country surrounded by creatives from all over the world, I feel overwhelmingly grateful for all the connections I made here at Harbour.Space. Thank you all for the constant source of inspiration, creativity and reflection - I have learned and grown so much and I am excited to see where the future will take us. Here is to many more adventures, hikes, hugs and collaborations. Until then: take care, be kind, stay wild.

MASTER IN DIGITAL MARKETING

Margarita Loktionova

@ mloktionova@eada.net

BIO

Margarita studied International Affairs and worked in advertising agencies in Moscow. After spending a year as a digital marketing manager in a travel company in Barcelona, she enrolled at Harbour.Space to study a Master's in Digital Marketing. She applied her learnings to her work projects in Bigle Legal and built both her array of skills and her confidence in the field. She will soon be moving to New York to work as the Marketing Activation Executive at Refinitiv.

STUDENT QUOTE

Modern society will always require you to stay ahead and foresee upcoming change. On the one hand, it makes our life much more dynamic, full of inspiration and discovery. On the other - it leaves no room for anything static. So, seek knowledge, look at things from a different angle and never say 'no' to your ideas and dreams, no matter how crazy they might be. This is what Harbour.Space is about: here, everything exists to remove any limits to your creativity, expose you to diverse opinions and uncover your full potential.

MASTER IN DIGITAL MARKETING

Nada Allouch

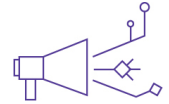

@ nadaaalloush@gmail.com

BIO

Nada was born and raised in Morocco. Throughout her Bachelor's in Communication, she found a passion for video production and content marketing. She joined Harbour.Space for her Master's in Digital Marketing as she saw an opportunity to grow as a marketer and also as a person. Nada believes that media and content impact how we experience the world and she aspires to contribute to making that experience better.

STUDENT QUOTE

To me, Harbour.Space is more than just school – it's a place where I grew a bit more every day. Whether it's in the classroom, the kitchen or the study areas, every interaction is a moment of exchange and learning. It's the kind of place where you randomly have the most inspiring conversations with people. For that, I'm intensely grateful for making it to Harbour.Space.

TOP 5 SKILLS:

MASTER IN DIGITAL MARKETING

Stephania Weitzner

@sweitznera@gmail.com

BIO

Stephania is a Digital Marketer from Mexico City. After working in a multimedia mass media company for over 9 years, she decided to join Harbour.Space for her Master's in order to develop new skills in Digital Marketing, specifically relating to audience targeting and segmentation. She hopes to apply these skills to future projects, such as a cultural VR experience she is designing, or for work with her clients, in order to further develop their marketing strategies.

STUDENT QUOTE

After more than 9 years of working in media, I decided to learn new skills not only so I can deliver more impactful marketing campaigns to my clients, but also to do something for me. It meant I had to leave my friends, my partner, my country, my home. But it is never too late to become a better version of yourself. To be challenged. To leave your comfort zone. To give yourself a time out. The world belongs to the brave. Just keep an open mind and enjoy the journey. And remember 'A time out is not a time wasted' (Shi Xing Mi).

Betsingame

MASTER IN FINTECH

Cornel de Vroomen

@ corneldevroomen@live.nl

BIO

Despite his studies in Computer Science, Cornel found that it isn't for him, and decided to focus on his other interests, Economy and Entrepreneurship. Cornel chose to do his Master's at Harbour.Space, choosing the High Tech Entrepreneurship program, but later switched to Fintech, as this is his big passion. After deliberating between developing his own company or finding a job, the latter was chosen, and Cornel landed a job at Flow Traders in Amsterdam.

STUDENT QUOTE

The people at Harbour.Space are so fun; there is a mutual respect and everyone helps each other out when in need. Big shoutout to all of you. Two quotes I live by: 'You get out what you put in', and 'Always challenge yourself, don't settle yet'. We are used to being fed and educated, where there is value received without giving any. But you don't get anything out, if you don't put something in. And keep reaching higher and go against the tendency to settle! Thanks for reading, we'll keep in contact!

MASTER IN FINTECH

Diego Gladig

@ diego.gladig@bluewin.ch

BIO

Diego is an aspiring entrepreneur from Switzerland. He came to Harbour.Space for a Master's in Fintech, in order to combine his Bachelor's in Economics with business opportunities. In the end, he ended up improving his skills and vision as an entrepreneur, advancing his programming skills, and expanding his awareness of the trends and opportunities in Fintech. Although he is not sure of this path yet, in his words - 'fail until you succeed'.

STUDENT QUOTE

The most important thing that I have learned this past year - besides coding in three different languages, nailing my investor pitch, recognizing Fin- and Insurtech opportunities, meditating, and confronting my biggest fears - is that setting goals can limit yourself. Forget the original goal and focus on mastering your daily objectives only - that way you allow yourself to grow every day without being dependent on achieving the ultimate goal. In any case, you allow yourself to become a better version of yourself every day.

TOP 5 SKILLS:

MASTER IN FINTECH

Mark Alexander Bradatsch

@ mark.bradatsch@gmx.net

BIO

Mark is German, with a background in Business Administration. He came to Harbour.Space to study a Master's in Fintech because of the unique academic environment - in his words, he was attracted by the teachers who are professionally successful and treat students like participants, and of course by the Barcelona lifestyle. After a year at the university, he is now prepared for an entrepreneurial future, not only because he acquired business knowledge, but also because he increased his self awareness and self confidence, and learned to impart interpersonal insights.

STUDENT QUOTE

For me, Harbour.Space is more than just a University. It's an opportunity - a stepping stone into professional life. It's a melting pot - a place to connect with other highly intelligent people. And it's a safe haven - like a testing room where you can learn new things without any fear and consequences. Thus, my conclusion: Harbour.Space is my place to be! ;)

MASTER IN INTERACTION DESIGN

Barbara Anna Matusik

@ barbara.anna.matusik@gmail.com

BIO

Barbara is a designer from Warsaw, Poland. She was strongly influenced by a 90's attitude, and inspired by designers such as Dieter Rams, Roman Modzelewski, Zaha Hadid, but also Michael Bierut and James White of Signalnoise. Her professional experience ranges from international agencies and digital studios, and her interest in communication science and her love for design eventually led her to UX Design, a role that she came to develop further with her Master's in Interaction Design at Harbour.Space.

STUDENT QUOTE

I don't believe in linear processes. Constant learning, observing and searching for new sources of inspiration are characteristics of a good designer. It's essential to 'feed' your brain & soul with new experiences so that creativity and ideas can strike at any moment. Something as simple as friendly conversation, an article you read, or a poster you've seen once, can be a trigger for a new concept. Having said that, thank you all for sharing your thoughts, insights, know-how and positive vibes.

MASTER IN INTERACTION DESIGN

Jana Brauch

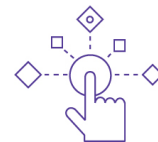

@ jana.brauch@web.de

BIO

Jana joined Harbour.Space from Munich, Germany, for a Master's in Interaction Design. She comes with experience in Business Administration, having completed her studies on the subject at the Master's level. Despite that, she decided to explore the field of design in order to work closer with designers and understand them better, with the hope of eventually working as a product manager and creating good products that will make an impact. In her words, she wants to build the tech we need for the world we want.

STUDENT QUOTE

I decided to study Interaction Design because I was driven to learn the skills that enable me to build impactful products, developing technology for the future we want.

MASTER IN INTERACTION DESIGN

Kamaljeet Dhiman

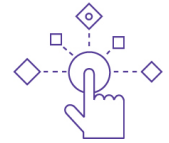

@ kamaldh94@gmail.com

BIO

Kamaljeet hails from Chandigarh, India but he's lived in California for an internship and in Penn State to study undergraduate physics. In his words, everything at Harbour.Space made 2018 the best year of his life. He developed an emotional connection to Interaction Design thanks to teachers like Anton and Irene, who expanded his perspectives in ways he didn't expect. He'd love to cultivate his passion for visual design and motion-concepts to create experiences that are both beautiful and functional.

STUDENT QUOTE

Life begins at the end of your comfort zone. You cannot develop empathy for others unless you truly empathize with yourself. Thanks to Felix and Christine for my intense moments of self-reflection. Thanks for bearing my techno obsession at all the parties I hosted (anxiety-inducing music, as Priya called it). I'm still quite unapologetic about it, though. And lastly, I cannot express how grateful I am to all my friends who gave me all the strength when I needed it most. I'll be there for you when you need it and you know it ;)

Leah Newman

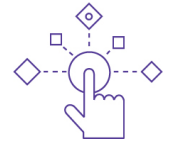

@ newman.leah@outlook.com

BIO

Leah was working as a Project Manager at Amazon when she discovered her interest and passion for understanding users and creating products and services with a focus on their needs. Originally from Germany and Australia, she moved to Spain to pursue her MA in Interaction Design and to learn from industry professionals. After her degree, she wants to initially focus on user research and creating compelling products through effective storytelling.

STUDENT QUOTE

Harbour.Space was exactly what I was hoping for. I had no idea about design and how the industry worked and I wanted to learn a lot in a very short time. I've been introduced to everything from animation to user research and continue to discover areas I want to explore or learn more about. Now it's time to take all that acquired knowledge and new skills out into the world and create something that will make an impact and that I'm proud of.

Maha Badawy

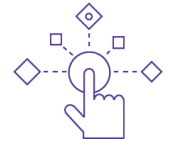

@ maha.m.safwat@gmail.com

BIO

Maha had been working in the field of UI Design for a while when she decided to pursue a Master's degree to further develop her skills in the digital world and to learn to design for it. While studying Interaction Design at Harbour. Space, she got the chance to do just that, while expanding her knowledge even further by taking several courses in entrepreneurship.

STUDENT QUOTE

And when I thought I'd seen it all, I came here! I got the chance to meet people from all over the world with completely different points of view, different motivations and different backgrounds. I do admit it was stressful most of the time, with a lot of pressure, but growth lays where the change is.

Maor Kotler

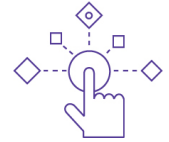

@ maorsito@gmail.com

BIO

Maor is a designer from Israel with academic and professional experience in design. He's worked for agencies, opened his own studio, and developed his entrepreneurial spirit through independent projects. He came to Harbour. Space for a Master's in Interaction Design to empower his design knowledge and to master the tools that can bring him closer to understanding the vast field of design and its possibilities. After a unique experience at Harbour. Space, he plans to work for a known agency, and later to develop his own product or service.

STUDENT QUOTE

All throughout the year I was super impressed with the quality of the people in the class. The good vibes, the willingness to help and the constant smiles :) We have shared amazing moments, laughs, and stress that translated into better friendship.

Mateo Buitrago

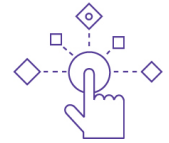

@ dmateobuitrago@gmail.com

BIO

Mateo is a designer from Columbia with experience in graphic design for digital products and startups. After spending years finding his own way and learning design on his own, he came to Harbour.Space for a Master's in Interaction Design to find structure and professional guidance. His studies gave him the opportunity to build on his visual design experience with communication and presentation skills, which he found to be just as valuable. As long as he can grow and help others grow, Mateo will stay in Barcelona.

STUDENT QUOTE

I came to Harbour.Space expecting a lot from our teachers, but I didn't give much thought about my classmates. Today I can say you guys gave me an amazing surprise - I've learned so much from you. You were definitely the best part of this journey. I will probably forget half of our lectures, but I will remember each one of you as part of myself. I hope to see you all again soon, as better designers and human beings. Remember to work hard, but mainly enjoy life and chill.

Priscilla Li

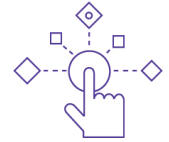

@ sunshine.prisli@gmail.com

BIO

Priscilla is a designer, technologist and strategist who uses design and technology to contribute to socially impactful causes. She previously worked as a computer scientist and engineer, but discovered her true calling was in user-centered design and came to Harbour.Space to sharpen her design skills under the tutelage of designers from all around the world. She's looking forward to using her diverse skillset to create products and services that spark joy and leave a positive impact on the world.

BIO

The most unique aspect about my experience at Harbour.Space was being able to put myself in a new scenario, tackle a new type of brief, join a different team and tell a different type of story almost every week. It's how I got to truly know myself and improved how I interact and collaborate with others.

Priya Narasimhan

@ pri.naras@gmail.com

BIO

Priya grew up in the USA and later moved to India, where she obtained her Bachelor's degree in Architecture. She came to Barcelona to further pursue her passion for human centered design, and went on to complete an MA in Interaction Design. Priya has always been passionate about understanding people and creating unique experiences, so she felt at home when interacting with talented designers from all over the world at Harbour.Space. She is now back in the United States to further pursue her career as a UX Designer.

STUDENT QUOTE

This experience has been one of the most enjoyable years of my life. It was enlightening and it pushed me to expand my limits. I couldn't have done it without the support of all the successful professionals who mentored me and, of course, the most talented and amazing bunch of people I am fortunate to call my friends. It's heart warming to know that I now have a home in so many countries and so many wonderful people to count on. I wish everyone who's been on this journey with me all the love and success they deserve.

Ramona Daniela Enache

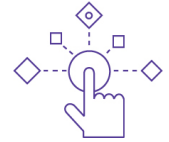

@ dani95ela@gmail.com

BIO

Ramona Daniela has always been interested in technology. Growing up, she dreamed of developing high-tech devices for counterintelligence, and took up computer science while researching and developing her design skills in her free time. She joined Harbour.Space for a Master's in Interaction Design from a background of fashion design, a field she had studied and worked in extensively. Her dream is to use her qualities to create desirable, ethical, and sustainable products that are indulging and intuitive for users.

STUDENT QUOTE

During my time at Harbour.Space I experimented with an incredible variety of challenges and roles, to the point that now I feel prepared to seek the unknown and, filled with excitement, to try and turn it into something that people will get excited about.

Thalita Cantos Lopes

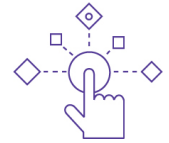

@ thalicantos@gmail.com

BIO

Thalita worked as an Art Director for 3 years. In 2016 she joined a civic hackers group that developed apps to improve citizens' lives, where she fell in love with the product design scene. She worked 2 more years on startup teams, then decided it was time to explore the international market and learn from the best in the industry. This brought her to her Master's in Interaction Design at Harbour.Space. She plans to have enough autonomy to be a digital nomad and to travel the world creating fun projects.

STUDENT QUOTE

For my friends. I believe the people in our lives are guardians of who we are. From the daily banana breads, to the blood, sweat and tears in class - you are all now guardians of this madness that I call the best year of my life. For our professors, thank you for teaching us how to see the world like you do. It is the best gift one can give. And for the Harbour.Space staff, thank you for bringing us together. Consider including a class to teach us how to keep the kindness and positivity you have with so many creatives on your nerves 24/7.

MASTER IN INTERACTION DESIGN

Vasudha Mundra

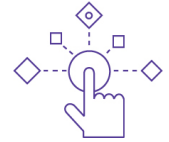

@ vasudhamundra@gmail.com

BIO

Vasudha is from Kolkata, India. While working in her family business of event management, she began designing in her spare time, and after taking further interest in college, she began working with people and designing professionally. She joined Harbour.Space for her Master's in Interaction Design to improve her skill set with the help of professionals, and to try and see how she can apply her background to the field of design. She wants to work in the design industry and combine her love for human interaction, her aptitude for design, and her background in event management.

STUDENT QUOTE

It's been a year filled with moments of happiness, utter confusion, anger and so much learning! We've all created memories and bonds that will last us a lifetime. The year wouldn't have been complete without each and every person, from the students to the professors and the staff! A big shoutout to the Batch of 2018-2019!!

Wei Chen

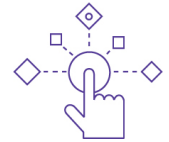

@ wei.chen.osu@gmail.com

BIO

Wei is a designer from Guilin, China. After completing his Master's in Electrical Engineering in the United States, he began working at Apple, during the development of the iPhone 5. Like many Harbour.Space students, he felt limited in his environment, and decided to travel the world. As a creative who enjoys working with people, he decided to join Harbour.Space for a Master's in Interaction Design with the dream of becoming a product manager.

STUDENT QUOTE

I came to Harbour.Space with the goal to acquire the knowledge and tools I need in order to bring positive change to the world. Both my teachers and peer students - design, business and tech, have taught me something valuable to fulfill that goal. I aim to build products and experiences that both satisfy deep human desires and bring lasting positive impact. We have only one planet earth, so let's make sure we only create and leave things here that we truly need, for us and many generations to come.
